Received and published: 14 August 2015

Dear authors,

In my role as Executive editor of GMD, I would like to bring to your attention our Editorial:

http://www.geoscientific-model-development.net/gmd_journal_white_paper.pdf

<http://www.geosci-model-dev.net/6/1233/2013/gmd-6-1233-2013.html>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

C1716

In particular, please note that for your paper, the following requirements have not been met in the Discussions paper – please correct this in your revised submission to GMD.

“– All papers must include a model name and version number (or other unique identifier) in the title. ”

As a Model Description Paper, you should include the model name, perhaps “NCAR_Topo (v1.0)”, and it is helpful to refer to the model by name in the Abstract and/or main text.

Yours, Bob Marsh
