As explained in https://www.geoscientific-model-development.net/about/manuscript_types.html GMD is is encouraging authors to provide a persistent access to the released source code. It is suggested that authors upload the program code of models (including relevant data sets) as a supplement or make the code and data available at a data repository preferable with an associated DOI (digital object identifier) for the exact model version described in the paper.

Many thanks. Lutz Gross GMD Executive Editor
