Received and published: 27 August 2018

For reasons of predictability could you please provide the reference to the particular release of DCMIP2016 the manuscript is referring to. As outlined in https://www.geoscientific-model-development.net/about/manuscript_types.html the preferred mechanism of reference is a DOI which can easily be created from a GitHub release using for instance Zenodo, see https://guides.github.com/activities/citable-code/ for details.
