Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2:
https://www.geosci-model-dev.net/12/2215/2019/

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the ‘Manuscript Types’ section:
http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

• “The main paper must give the model name and version number (or other unique identifier) in the title.”

Please add a version numbers for FAMOUS to the title upon your revised submission to GMD.

Yours,
Astrid Kerkweg
